TooAir PTT Application Guide

TooAir Push to Talk application guide is an in-depth guide to the user control and settings definitions of the application. The application is a powerful tool that can be used on both Android and IOS phones. This application connects a smartphone to the TooAir PTT broadcast system and offers a light weight dispatch solution.

Note:

Some of the features may be different depending on version installed, smartphone device and the access permissions granted to the user.

1.0 Logging In

Area: Australia

Account: *Enter Account*

Password: *Enter Password*

Login

2.0 User Controls

TooAir PTT application features are broken up into four tabs;

- Group
- Map
- Message
- Settings

By swiping your finger across the screen left or right you can change between tabs or by pressing the different tabs.

The back arrow displayed in the Group tab offers multiple options;

- Leave group *if in a group*
- Logout
- Exit

Trigger SOS: Hold in SOS button for at least 3 seconds

PTT Broadcast: Hold in PTT button for broadcast

The SOS button can be removed from display and the PTT button can be enlarged in the settings tab

Close the Application: Navigate to the settings tab, scroll down to the **Exit** button and select Exit or use the back arrow as described above

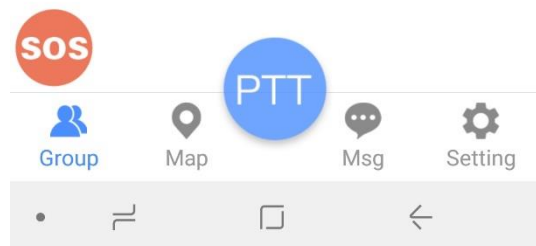

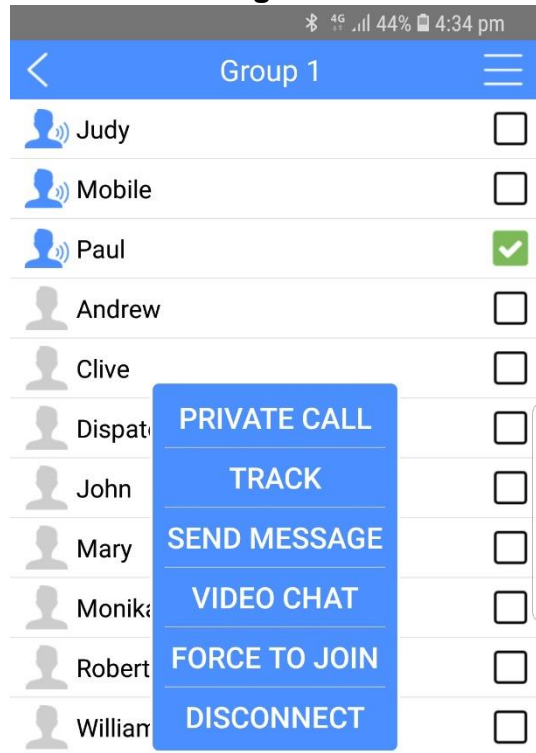

2.0.1 Map Features

In the map tab there is either last location or real time location, last location will display users last known location this will display users even if they are offline. The real time location will display only online users in real time at their current location.

Users name tags can be toggled on and off in the settings tab.

Offline users will be displayed in a grey icon and online users will be displayed in a red icon.

2.0.2 User Management

Navigate into a group press and hold on desired user for additional options;

Private call: *Commence a private call with user*

Track: *Displays tracking of user on map tab*

Send Message: *Commence sending a message to user*

Video Chat: *Commence video chat with user*

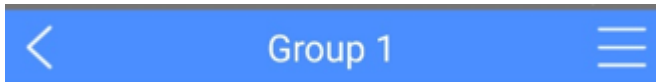

Force to Join: *Force user to join a group*

Disconnect: *Disconnects user from group*

Stun User: **CAUTION** Stops user from accessing PTT broadcast system **CANNOT be REVERTED** unless contacting local dealer or TooAir

Smartphone App Guide
